

THE DECEMBER SNAPSHOT

From Homeless to Housed

SAN FRANCISCO'S PROGRESS IN HELPING RESIDENTS EXIT HOMELESSNESS

TOTAL PEOPLE WHO HAVE EXITED HOMELESSNESS IN SF

In October, 101 people exited homelessness in San Francisco, bringing us to 983 people from January-October 2020

HELPING PEOPLE EXIT HOMELESSNESS IN 2020

In October, 101 people exited homelessness in San Francisco, bringing us to 983 people from January-October 2020.

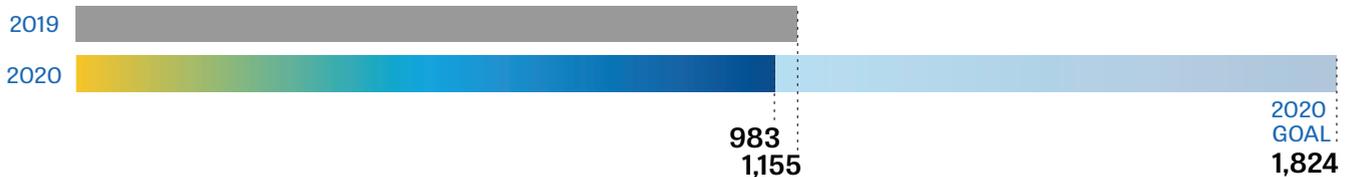

We are on track to house more individuals than we did in 2019, and thanks to the efforts of the Our City, Our Home (“Prop C”) Committee, we have the resources to move that needle faster than ever before.

WHO IS EXPERIENCING HOMELESSNESS IN SF?

Systemic inequities have resulted in a homeless population with glaring disparities for Black and queer San Franciscans.

Black residents make up only **6%** of total SF population but **36%** of homeless population. Queer San Franciscans are **27%** of the homeless population but only **14%** of the total population.

PEOPLE WHO HAVE EXITED CHRONIC HOMELESSNESS IN SF

EXPANDING THE SOLUTION SPACE

As we have stated repeatedly since the launch of this campaign, the City needs to adopt more strategies to end homelessness, particularly strategies that can be deployed quickly. That is why we have been vocal advocates of the Flexible Housing Subsidy Pool (Flex Pool) - a strategy that secures private market homes for people experiencing homelessness by building relationships with landlords and providing rental subsidies and supportive services to help tenants stay housed for the long term.

Launched in July 2020 as a pilot effort to house 250 people, just two weeks ago, the Prop C Committee voted to release funds to more than double the size of the Flex Pool by next summer. This expansion demonstrates that innovative approaches to housing can be scaled to meet the most pressing housing needs and support the transition from Shelter-In-Place hotels to ensure no one goes back to the streets.

“The Flex Pool embodies what the All In campaign has always championed – innovative, urgent solutions and a coalition of San Franciscans committed to creating more housing citywide. This vital combination creates the urgency necessary to move our unhoused neighbors into safe, stable housing at a time when the safety of home has never mattered more.”
